EUT – PCB chip View

A photograph of the EUT PCB chip view. A ruler is placed vertically on the left side of the board for scale. A red box highlights a small, rectangular component on the left side of the board, which is identified by a callout as the BLE/SRD Antenna. The PCB is populated with various components, including an ARM processor, several capacitors, and other integrated circuits. The board is green and has a complex layout of components and traces.
