

Annex F. Photographs

F.1 Test Sample

F.2 Test positions

Top Edge	Back Face
 A photograph showing the top edge of a device under test (DUT) mounted on a test fixture. The fixture is a black metal frame with a transparent acrylic shield. A computer monitor is positioned behind the shield, displaying a software interface with various graphs and data. The DUT is a black rectangular device with a silver antenna on the top edge. The background is a plain white wall.	 A photograph showing the back face of the DUT mounted on the same test fixture. The DUT is a black rectangular device with a silver antenna on the back face. The fixture is a black metal frame with a transparent acrylic shield. A computer monitor is positioned behind the shield, displaying a software interface with various graphs and data. The background is a plain white wall.

F.3 Antenna host platform location and adjacent edge positions relative to the body

F.4 Phantom liquid level during measurements

ELI phantom Body liquid SAR Dasy SPEAG MBBL600-6000V6 Batch - 160630-01
