Ref: FCC Class II Permissive change for FCC ID: PD9AX203D2

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9AX203D2, originally granted on 01/29/2021.

Change #1: This change establishes portable category SAR conditions for the Dell model P30T convertible PC with PIFA antennas part number DC33002L50L (260-24378).

Note (s):

- Our intention is to apply the PAG re-use process for granting approval due to the Dynamic SAR feature using G/Hall sensors.
- The PC systems categorized as portable regarding FCC Part 2.1093 and IC RSS-102 chapter 3 satisfies the conditions based on modular stand-alone SAR evaluation with 16mm antenna to user separation distance. The most conservative SAR conditions demonstrate compliance with the RF exposure evaluation requirements. Maximum reported WLAN SAR value is 0.80 W/kg (1g) at 16mm.

Sincerely,

A handwritten signature in blue ink, appearing to read "Benjamin Lavenant", with a horizontal line extending to the right.
