Ref: Manufacturer Attestation for Class II Permissive Change for FCC ID:
PD9PBA5001

Dear Examiner,

This is an attestation FCC ID: **PD9PBA5001**, originally granted on **11/05/2013**, is applying for permissive change under 15.404(b)(4)(ii). Intel declares there have been no hardware changes to the device since the original approval that impact RF performance or compliance.

Furthermore, we attest that the antenna type and gains listed below are the worst case for the client only module. We acknowledge that only antennas of this type (PIFA) with equal or less gains (dBi) than shown below are permitted for use with this device without further evaluation. This device complies with all antenna limits as described in 15.247(d).

Antenna Type	Model Part Number	Antenna Location (Main/Aux)	2.4GHz Peak Gain in dBi*	2.6GHz Peak Gain in dBi*	5.2GHz Peak Gain in dBi*	5.5GHz Peak Gain in dBi*	5.7GHz Peak Gain in dBi*
PIFA	Universe technology Intel Reference Antenna	Main	3.24	3.47	3.64	4.77	4.97
PIFA		Aux					
PIFA		MIMO					
*All Antenna gains include cable loss							

Sincerely,

By:
