FEDERAL COMMUNICATIONS COMMISSION

7435 Oakland Mills Road
Columbia, MD 21046
USA

Subject: Certification Application under FCC Part 15, Subpart C, Para. 15.231, Momentarily Operation in 433.95 MHz.

Applicant: LEEDS ELECTRONIC ENGINEERING LTD.
Product: WIRELESS MAGNETIC SWITCH FOR DOORS/WINDOWS
Model No.: LS1001
FCC ID: PDB-LS1001

Dear Sir/Madam,

As appointed agent for LEEDS ELECTRONIC ENGINEERING LTD., we would like to submit the application to the Federal Communications Commission for certification of the above product. Please review all necessary files uploaded to FCC OET site for detailed information.

Since the rf exposure safety distance is approximately 0.08 cm where the power density reach 0.29 mW/cm^2 and the antenna is enclosed within the case, the RF exposure risk is in-considerable. Therefore, the applicant wishes to apply for the exemption of meeting both the SAR test requirements per FCC OET Bulletin 65 and FCC RF Exposure Distance per 2.1093

I you have any queries, please do not hesitate to contact us.

Yours truly,

A handwritten signature in blue ink over a circular red stamp. The stamp contains the text "LEEDS ELECTRONIC ENGINEERING LTD." around the perimeter and "Y.M. 1001" in the center.

Tri Minh Luu, P. Eng.,
V.P., Engineering
