

8. User's manual

The UWB/NFC Module is one of the component installed in a vehicle. Therefore, we will not supply the user's manual for this product. Instead, we will ask the vehicle manufacturer to include the following in the vehicle's user manual. The importer's information will be included in the vehicle's user manual.

Note

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device may not be employed for the operation of toys, aircraft, ships, or satellites.

FCC Caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radio Frequency Radiation Exposure Compliance

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment must be installed and operated keeping the radiator at least 5mm or more away from person's body.
