Subject: Re: Review of FCC ID: PENASAT2

Dear Tim,

Antenna of this product is only one which characteristics are stated in operational description. However, there are three types of handles to install this one Antenna. Material of handles are plastic resin and it will not give any affect on output characteristics of antenna, so that we performed the testing with one type of handle with the antenna.

Please give us confirmation of receipt of this email and I am looking forward to hearing from you.

Best Regards,
