

Bluetooth™ Module Design Application

Model number	Function	Document revision
UGT#4-1##A UGT#4-A##A	Coax. RF connector Flash memory Reference oscillator built in UART or USB interface	V1.0

Digit	Definition	Contents
Digit 0~3	Bluetooth™ Module Including Base Band	
Digit 4	Destination	Z: Worldwide
Digit 5	Antenna output	With Coax. RF connector =“4”
Digit 6	Status of products	X: Engineering Sample -: Mass production
Digit 7	Power class & Connector type	Class 1 & B-B, UART =“1” Class 1 & B-B, USB =“A”
Digit 8~9	Serial number	Customer dependent
Digit 10	Revision	Starting from A

➤ Features

- ◆ Compact package size (35x15x2.65mm).can be fit to any type of product
- ◆ RF connector accompanied
- ◆ Built-in Link controller, Link Manager Protocol
- ◆ HCI interface over UART(1##A) and USB(A##A)
- ◆ Class 1 support
- ◆ Supported PCM interface for SCO
- ◆ Built-in flash memory, system clock

➤ Application

- Mobile Phones, PCs, PDA, Terminal Adapters, Digital Cameras, Printers, Other Peripheral Devices
