FCC Class II Permissive Change Request Letter

Date: March 06, 2018

To FCC:

RE: FCC Permissive II Change Request for Company: Digital Multimedia Technology Co., Ltd. FCC ID: PFNIPH3004HDM

We are submitting an application for a class II permissive change to the FCC approval of the Company name: Digital Multimedia Technology Co., Ltd., product description: Set top box (FCC: PFNIPH3004HDM, Original Grant Date: December 22, 2015). The transmitter module itself has not changed. Here are the changes:

The main board (PCB version) and top shield cover of the EUT have been changed.

Main board (PCB version)	DMT-1434 V1.0 (Before)	DMT-1434 V1.1 (After)
View of Main board	A photograph of the DMT-1434 V1.0 main board. It is a green PCB with various components, including a large black heat sink in the center, several capacitors, and connectors along the edges. A ruler is placed below the board for scale, showing measurements in centimeters.	A photograph of the DMT-1434 V1.1 main board. It is a green PCB with various components, including a large black heat sink in the center, several capacitors, and connectors along the edges. A ruler is placed below the board for scale, showing measurements in centimeters.
Top shield cover	Before	After
View of Top shield cover	A photograph of the top shield cover before the change. It is a rectangular metal plate with a perforated pattern of small holes and a central rectangular cutout.	A photograph of the top shield cover after the change. It is a rectangular metal plate with a perforated pattern of small holes and a central rectangular cutout, similar to the previous version but with slight differences in the cutout shape.

Sincerely,
