Subject: Class II Permissive Change

To Whom It May Concern:

The set of files, which aims to apply class II permissive change, is prepared by BACL on behalf of 2Wire, Inc.. for the designated product which has already been approved by FCC or its agent.

The following change were made to the model by 2Wire, Inc. for better performance.

1. Reduced PCI bus signaling voltage to 3.3 volts. The power supply and all reference voltages remain the same.
2. Added more inductive filtration of ADSL analog power supply

If you have any question about this request, please call me at (408) 732-9162*11 or email me at johnc@baclcorp.com.

Yours truly,

A handwritten signature in black ink, appearing to read "John Chan", is written over a light gray circular background.
