

RF Exposure Information

The National Wireless model TV1 television transmitter can be used either as a mobile device as defined in 47CFR2.1091(b), or as a portable device as defined in 47CFR2.1093(b).

This unlicensed transmitting device is categorically excluded from routine environmental evaluation for RF exposure prior to equipment authorization under 47CFR2.1091(c), as a mobile device, and under 47CFR2.1093(c), as a portable device.
