

Photo 1: Radiated Emission Test Set-up (Base)

A black and silver BellSouth 2-line cordless phone system is shown on a light-colored surface. The base unit features a handset on the left, a numeric keypad, and a digital display showing '00'. The brand name 'Bellsouth' is visible on the front. To the left of the phone is a white rectangular label with the number 'GH9764' printed in large black font. A thin black cord is connected to the top of the phone.
