

American Telecommunications Certification Body Inc.

6731 Whittier Ave, McLean, VA 22101

April 18, 2001

Applicant: BitRage Inc.
FCC ID: PJKCR45-A-53

Attention: Mark Briggs

Mark,

I have a couple of comments on this Application.

- 1.) External photographs can never be held Confidential. Internal photographs can be held confidential only in very rare or unusual circumstances (i.e. protecting a unique manufacturing operation). Please justify how the photographs can be Confidential or change the Request for Confidentiality letter.
- 2.) Page 12 of the test report specifies the RF power output was measured using broadband instrumentation. Please identify the meter and sensor.
- 3.) FYI: In the future, please do not make one MPE report to cover multiple products. This is confusing and slows down the review.
- 4.) Page 1-3 of installation manual indicates maximum Pout can be +5.8 dBm. This would exceed maximum permitted power using +28dBi gain antenna, change MPE report and listing on Grant. Please address.
- 5.) Also see Page 2-2 of same document: Pout does not match

Any questions please call or email.

Bill
