

Use instruction

- Thank you for choosing our toy R/C car. To ensure correct and pleasing operations, please read through the following use instruction and have enough understanding of the product before use.

⚠ CAUTION:

■ ELECTRICALLY OPERATED PRODUCT

Not recommended for children under 8 years of age. As with all electric products, precautions should be observed during handling and use to prevent electric shock.

How to recharge the Battery pack?

1. If 1.5V AA non-rechargeable batteries are used, simply load in the batteries according to the polarity marks.
2. If rechargeable battery is used, please plug in the charger and insert the plug of the battery into the charging jack on the charger. (Picture 1)
3. Allow battery pack to be charged for a minimum of 8 hours for the first and second charges, subsequent charges require 5-6 hours. Do not over charge the Battery pack. Charging the battery pack for a longer period will not increase the Battery charge life.
4. Battery charger used with the toy are to be regularly examined. For damage to the cord, plug, enclosure and other parts, and that, in the event of such damage, the toy must not be used with this charger until the damage has been repaired.

Transmitter and Vehicle operation

Operations Tips:

- Please make sure the power switch is in the ON position when you operate, and OFF position when not in use.

Battery and Antenna Installation-Transmitter and Vehicle

1. Install 6 pieces of 1.5V AA batteries with polarity (+/-) as shown inside battery compartment. (Picture 1)
2. Follow the arrowhead to close the remote control's battery cover.
3. Locate the antenna mount on the top of controller. Insert the antenna into the mount opening and rotate in a clockwise direction until snug. (Picture 2)
4. Install new batteries or fully charged rechargeable batteries into the battery compartment on the chassis.
5. Tighten battery door with a Philips head screwdriver.

SHANTOU SHUANGXING TOYS CO., LTD

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
