

Technical specifications

All the transmitters

Center frequency: 433.92 MHz $\pm$ 20 kHz

Oscillator: 30MHz

Modulation: GFSK

Rate = 40kbit/sec

Code: A train of pulses lasting 17.6ms followed by a pause of 100ms.

Radiated power (ERP): < -80.83dB μ V/m

DC=(8.8*2)/100=0.176

20Log(DC)= -15.09 dB

Correction average power: -15.09 dB

Working temperature: from -20°C to +55°C

Instructions Manual
