

3. Please clarify if the receiver portion of the device is being authorized under an sDoC or certification. A simple explanation/response is all that is required. I do not believe the current quotes/invoices covered doing a Certification for the 15B (Receiver) portion of the device.
 - a. If ACB's review includes the 15B (Receiver review), then the 731 form should identify the device type as DSR. If ACB's review does not include the 15B, then the 731 form should identify the device type as DSC.

I confirm that the receiver portion of the device will be covered by a SDoC.

Uploaded ACB-Form-731 - Rev.2 – Signed in which the device is identify as DSC
