1. Remote distance up to 4 to 5 meters in open environment.
2. The truck can move straight, left and right in forward and backward direction.
3. The dumper can move Up and Down.

How to play

Switch on the ON/OFF switch under the head of the Truck to "ON" mode

1. Forward/Reverse buttons – Press the forward button runs the truck in forward. Press the reverse button runs the truck in reverse. Release button to stop.
2. Steering forward – Press the left corner of the forward button steers the truck to the left. Press the right corner of the forward button steers the truck to right. Release button to stop.
3. Steering reverse - Press the left corner of the reverse button steers the truck to the left. Press the right corner of the reverse button steers the truck to right. Release button to stop.
4. Dumper motion - Press the "Up" button of remote controller to move the dumper up. Press the "Down" button of remote controller to move dumper down.
5. In order to save batteries life, switch the ON/OFF switch to OFF when not in use.

4/4

Caution:

1. Do not mix old and new batteries.
2. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
3. Non-rechargeable batteries are not to be recharged.
4. Rechargeable batteries are to be removed from the toy before being charged.
5. Rechargeable batteries are only to be charged under adult supervision.
6. Only batteries of the same or equivalent type as recommended are to be used.
7. Batteries are to be inserted with the correct polarity.
8. Exhausted batteries are to be removed from the toy.
9. The supply terminals are not to be short-circuited.
10. Any battery charger to be used with the toy should be regularly examined for potential hazards, such as damage to the cable or cord, plug, enclosure or other parts, and that, in the event of such damage, the toy must not be used until that damaged has been properly removed.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Correct the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.
