

Main Accessories (find more information at Wisycom.com)

LBC61: Multiple battery charger (4 MTP61 + 4 batteries) + TX management + LTC

CAUSBM5P: Cable from USB/A to magnetic connector 5pin-M, length=1050mm for battery charging, TX management and LTC Timecode sync

LBP61: rechargeable Lithium-ion battery Model CS-BCE10, Cameron Sino Part No. CGA-S008E. 3.7V, 1050 mAh, 3.9Wh

LBP61: rechargeable Lithium-ion battery Model CS-BCE10, Part No. CGA-S008E 3.7V, 1050 mAh, 3.9Wh, Cameron Sino

BCL61: spring loaded belt clip

BCLW61: reversible wire belt clip

Conformity conformity identification is visible on the display by accessing from the Main menu the Info-> STD submenus: step 1: access submenu Info; step 2: access submenu STD.

				FCC-ID: POUMTP61 *
				IC: 11967A-MTP61 **

(*) The Wisycom microphone pocket transmitter model MTP61 complies with the following requirements: FCC (Federal Communications Commission) Part 74. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operations. Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. FCC ID can be found inside the battery compartment.

This device complies with part 15 of the FCC rules. operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: the grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

(**) EN This device complies with Industry Canada license-exempt RSS-123 and RSS-210 standard. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. This radio transmitter IC: 11967A-MTP61 has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.

FR Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence RSS-123 et RSS-210. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. Le présent émetteur radio IC: 11967A-MTP61 a été approuvé par Industrie Canada pour fonctionner avec les types d'antenne énumérés ci-dessous et ayant un gain admissible maximal et l'impédance requise pour chaque type d'antenne. Les types d'antenne non inclus dans cette liste, ou dont le gain est supérieur au gain maximal indiqué, sont strictement interdits pour l'exploitation de l'émetteur.

Antenna types: 50 Ohm impedance, max gain 2.1dBi: AWS5-507: band 470-547 MHz. AWS5-590: band 547-683 MHz. AWS530-950: band 940-960 MHz. This equipment complies has been evaluated for and shown compliant with the FCC and ICSEF RF Exposure limits. The unit of measurement for RF exposure is Specific Absorption Rate (SAR). The FCC SAR limits for is 1.6W/kg per 1g of tissue.

The maximum SAR levels tested has been shown to be 0.85 W/kg at head with 0mm of separation distance from the body. This device operates on a no-interference, no-protection basis. Should the user seek to obtain protection from other radio services operating in the same TV bands, a radio license is required. For further details, consult Innovation, Science and Economic development Canada's Client Procedures Circular CPC-2-1-28, Voluntary Licensing of License-Exempt Wireless Microphones in TV Bands.

Mic Mode	Pinout
2 W	1 = GND / 3 = AF
2 W+B	1 = GND / 3 = AF+5,5 V
3 W	1 = GND / 2 = 5,5 V / 3 = AF
AUX	1 = GND / 3 = AF (High impedance)

Mic Input (LEMO type)

Load a mic PRESET to suit your wiring or enter the Audio menu.

Antenna type	Label	Code	Band MHz
	507	AWSS-507	470-547
	590	AWSS-590	547-663
	552	AWSS-552	510-595
	646	AWSS-646	595-698
	710	AWSS-710	663-760
	796	AWSS-796	760-832
	808	AWSS-808	806-810
	950	AWSS-950	940-960
	1K1	AWSS-1K1	960-1160
	1K2	AWSS-1K2	1240-1260

Antenna Connector (SSMA type).

Audio LED

- OFF: Audio is muted
- GREEN: Audio is enabled
- RED: Audio is peaking

RF/Power LED

- OFF: MTP61 is OFF
- GREEN: Transmission is ON
- RED: Transmission is OFF
- RED SLOW BLINK: battery < 25%
- RED FAST BLINK: battery < 12%

SEL / ON

Push to switch ON the device. Push together with GAIN/UP to enter the main MENU. When in menu single push to save and confirm selections.

Gain Shortcut/Up

Push to quickly access gain setup frequency menu and/or scroll up while in the menu.

EXIT / OFF

Long press to switch the unit OFF.
Short press to step back in menu
Press together with SEL/ON to mute/unmute the audio.

Recording Status Led

Solid red when recording has started.

Ch Shortcut/Down

Short press to access channel/group/frequency menu and/or scroll down while in the menu. Long press it with EXIT/OFF to lock the front panel.

Battery compartment

Press to open

Magnetic Connector 5 pin

to recharge battery, connect to Wisycom Manager, LTC Timecode sync, Download recorded files (USB High Speed).
