Dear, Sir

We always appreciate your cooperations on our FCC applications.

According to your request so resend the e-mail and attachment file.

- 1) The Users Manual has listing of 1000mAH (standard) and 1700mAH (extended) batteries; however the SAR report document testing of only the standard battery. If there is an extended battery option for this device, please submit SAR compliance documentation for this device using the extended battery or correct the manual as necessary.

====>There is only standard battery.

So We've revised the User's Manual . (page 14)

Please find the attached file. (filename : ATT. M (Manual)-new)

- 2) Also, please note that your FCC 15-B report indicates compliance with ANSI C63.4:1993 measurement procedure. Please update your test procedures to ANSI C63.4:2003 per the new FCC rules.

====>We've revised the EMI_Part 15 Test-Report.

Please find the attached file. (filename : EMI_Part 15 Test-Report (PC-7100)-new)

This project are very urgent project for our client.

Our deathline is over already .

[Please this project should be completed within April 20, 2005 if possible.](#)

If you have questions or comments on this application, please do not hesitate to conatct us.

Best Regards,

Kuen- Ho Park - HCT
