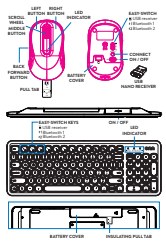
Overview



Safety Precautions

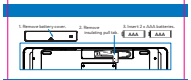
WARNING

FCC compliance statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Radiation Exposure Statement: The product comply with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.
FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Operation, Setting Up Mouse and Keyboard

Activating battery
2 x AAA batteries (keyboard) and 1 x AA battery (mouse) are included.



Operation, Setting Up Connection Channel

Multiple connections
The mouse and keyboard can both connect up to 3 different devices by changing connection channels between USB receiver and 2 other Bluetooth channels.

Mouse

Keyboard

Press "Easy-switch keys" to change connection channels.

The corresponding LED indicator will light up in green when its channel is set.
For example, when you press Bluetooth (F1), its LED indicator will light up.

Switch between different devices
For example, you can set USB receiver to , Bluetooth 1 to , Bluetooth 2 to . Then set Bluetooth 1 on tablet C, then use "Easy-switch and press Easy-switch keys" to switch connections between these 3 devices.

Connect via USB receiver
These are plug-and-play with USB receiver. Make sure to turn on the mouse and keyboard, and remove and store the USB receiver ( ). Plug USB receiver into an available USB-A port on your computer.

Connect via Bluetooth
Turn on the mouse and keyboard, set them to either Bluetooth 1 or 2 (or).

Mouse
Press and HOLD "Connect" button to set mouse in Bluetooth pairing mode.
LED indicator will start flashing in pairing mode.

Keyboard

Press and HOLD "Easy-switch keys" you've selected in Bluetooth pairing mode.

The corresponding LED indicator will start flashing in pairing mode.

Windows

MacOS

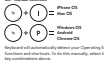
Click on "Apple menu", go to System Preferences.
→ Bluetooth
→ Turn on Bluetooth
find "xxxx BTMouse" in the list and complete Bluetooth pairing.

ChromeOS (Chromebook)
Click on "Status bar" at the bottom right corner of the screen.
→ Bluetooth (turn it on),
find "xxxx BTMouse" in the list and complete Bluetooth pairing.

iOS
Click on "Settings"
→ Bluetooth (turn it on),
find "xxxx BTMouse" in the list and complete Bluetooth pairing.

Android
Click on "Settings"
→ Connections
→ Bluetooth (turn it on),
find "xxxx BTMouse" in the list and complete Bluetooth pairing.

OS - Manual Selection



The board will automatically detect your Operating System (OS) and provide correct functions and shortcuts. To do this manually, select the proper OS by using the key combinations above.

Operation, Other Funtions

Low battery
If LED starts blinking (when it's not in pairing mode), you need to change battery.

Function keys

Press F1 ~ F12 will perform as shortcut function keys below

	Switch to USB nano receiver channel (2.4GHz)		Switch to previous media track
1	Switch to Bluetooth channel 1		Play media or pause current media track
2	Switch to Bluetooth channel 2		Switch to next media track
	Mutes computer sound		Decrease display brightness
	Decrease computer volume		Increase display brightness
	Increase computer volume		Open Windows Search

Press and hold Fn + F1 ~ F12 will perform as standard function keys.

Reset USB receiver connection
Mouse and keyboard are not working on USB receiver ?
Make sure both keyboard and mouse are powered on and the channels are set to ( ).
Make sure USB receiver is securely plugged into a USB port, or try a different USB ports.
If it's plugged into a USB hub, plug it directly into a USB port on your computer.

Reset Bluetooth connection
Mouse and keyboard are not working on Bluetooth?
Make sure both keyboard and mouse are powered on and the channels are set to or .
Make sure to turn on Bluetooth function on your computer.
Set them in pairing mode, find them on the pairing list on your computer and complete the pairing.

Note:
Under Bluetooth connection, mouse and keyboard should automatically reconnect to their last connected computer, if it is not, you can always re-pair again.
