our Bluetooth® compatible device, look for the discoverable device "GE A21 RGB Speaker Bulb"

t the bulb to play music, podcasts, and more

uetooth® device or remote provided to control the remote to control music, change colors, dim white light, and turn bulb on and off.

LED+ Speaker bulbs will sync automatically with GE LED+ A21 or BR30 bulbs. Link this bulb with others to create surround sound experience. Bulbs are controlled individually by using the remote within range of a specific bulb. Or, control all synced bulbs using the remote within close range of the bulb.

Additional bulbs, turn on added bulb and it will automatically sync with the parent bulb, or the first bulb set up in the system. Subsequent bulbs should be within 25 ft of the parent bulb.

Bulbs can be controlled individually by using the remote within close range of a specific bulb. Or, control all bulbs by using the remote within close range of the parent bulb.

If a wall dimmer switch is used, the volume may be dimmed below 20% dimming levels.

FCC requirements:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

⚠ WARNING

Chemical Burn Hazard- Do not ingest or swallow coin cell battery. This remote control contains a coin cell battery. If the coin cell battery is swallowed or ingested, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used coin cell batteries away from children. If the battery compartment does not close securely, stop using the remote control and keep away from children. If you think coin cell batteries have been swallowed or placed inside any part of the body, seek immediate medical attention.

Industry Canada Requirements:

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with FCC & Industry Canada RF exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. The antennas used for this product must not be co-located or operated in conjunction with any other antenna or transmitter.

Les exigences d'Industrie Canada:

Cet appareil est conforme aux normes RSS sur les appareils exempts de licence d'Industrie Canada. Le fonctionnement de ce produit est assujetti aux deux conditions suivantes :

(1) Cet appareil ne doit pas causer de brouillage préjudiciable;

(2) Cet appareil doit accepter tout brouillage reçu, y compris le brouillage pouvant causer un fonctionnement indésirable.

Cet équipement est conforme aux limites d'exposition aux radiofréquences (RF) de la FCC et d'Industrie Canada, définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps. Les antennes utilisées avec ce produit ne doivent pas être colocalisées ou fonctionner conjointement avec une autre antenne ou un autre émetteur.
