FRONT OF RECEIVER

BACK OF RECEIVER

HAND HELD MICROPHONE

TIE CLIP MICROPHONE

OPERATION:

1. Remove the battery cover of handheld or body-pack transmittor, put a 9 volt battery in she compartment as the polarities and then close the cover. (if a body-pack transmitter is used, you should put a 3.5 plug of a headset or tie-clip microphone into the 3.5 jack on the transmitter.)
2. Connect the matched adapter to the AC power and plug the DC plug at the other end into the DC jack on the receiver.
3. Put one end or the matched connecting wire 6.3MO.(P)/6.3MO.(P) to the mic jack on the amplifier, and the other end to the 6.35(J) jack on the receiver. Soitch on the transmitter and receiver, the indicator light are flkshing, You can adjust the volume kf the amplfier as you like, then the system is working.

TROUBLE SHOOTING:

Please take time to read this manual, before asking for after service. And checking follow points. If it also have unusual thing, please contact with purchasing store. We are sincerely to serve for you.

1. Before connecting and operating the unit, check the voltage setting conformed to the voltage available in your area.
2. If the LED indicator is still on light that means power supply is in need or replacement. Please replace a new 9V battery and be sure that polarity (+)(-) or battery is connected properly.
3. Signal dropouts and noise may be suddenly encountered by interruption form outside, too long distance between microphone and receiver or battery in low power. In such case, adjust receiver antenna or change new battery.
4. Do not drop the microphone on a hard concrete floor, not strike the microphone head front with a fist or fingers, nor blow a breath strongly into the microphone head front.
5. Remove the battery from microphone if it doesn't use during a long time. This will prevent any damage caused by a defective "leaking" battery.

TRUBLE SHOOTING GUIDE

The on air Indicator does Not light	The wireless microphone is not turned on.	Turn on the wireless microphone
	The microphone receiver is not turned on.	Turn on the microphone receiver and the connected AV equipment
	The microphone receiver is not connected Properly.	Turn on the microphone receiver and the connected AV equipment
No sound	The battery in the wireliss microphone is weak.	Replace the battery
	The microphone receiver is not Turned on.	Turn on the microphone receiver and the connected AV equipment
	The connected AV equipment is not Turned on.	Turn on the AV equipment
	The speakers/headphones, are not connected to the AV equipment.	Connect the speakers/headphones
The sound is diforted	The battery in the wireless microphone is work.	Replace the battey
	The AUDIO OUT on the receiver is not set correctly.	See the "PARTS IDENTIFICATION" in this manual and set it correcty
A howling noise heard from the speakes	The distance between the wireless Microphone and speakers are too Close.	Move the wireless microphone away from the speakers or change the direction of the microphone
	The battery in the wireless Microphone is weak.	Replace the battery

TRUBLE SHOOTING GUIDE

OVERALL SYSTEM

Carrier Frequency Range	160 to 270 MHz, VHF HIGH BAND.
Frequency Stability	+/-0.005% with quartz controlled.
Maximum Deviation Range	+/-15KHz. With limiting compressor
Frequency Response	100Hz to 15KHz
S/N Ratio	Better than 100dB.(A).
T.H.D	Less the 0.5%
Audio Dynamic Range	Over 100dB. Over 188dB with limiting
Service Areas	30 meters

Receiving system
S/N Ratio
Image and Spurious
Rejection
Power supply

Dual channels fixed frequency by quart
Over 108dB at 15KHz deviation
80 dB minimum
AC 230V/DC 12V

Techonology of U.S.A

OPERATION:
