RE: FCC ID: PVTRAD-RF_ATCB002405
Attention: Kathy Grzovic

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the manual does not appear to have the required non-modification statement. Please note that while it contains a statement that the user is not to change the set, it does not warn the user that such non authorized modifications may void the users authority to operate the device. Please correct.
2. Please note that according to section 1.2 of the report, an engineering modification was done to make the device compliant, however, there is no documentation from the manufacturer that this modification will be implemented. Please provide an attestation from the manufacturer that all modifications made on the device by the test lab will be implemented.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
