

**ERONE , Series ERONE 024A –
Types S2TR2641E2 / S2TR2641E4 / S2TW2641E2 / S2TW2641E4**

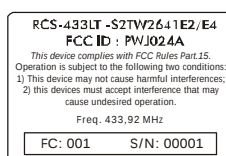

LABELS – Scale 1:1

1 Product labels:

Label N°1:

Label N°2:

NOTE1 : The transmitter is produced in 2 different versions which differ for the colour of the plastic box and for 1 bit on the transmitted frame, for a total of 4 different types, taking into account the number of push-buttons.

The electronic card is identical for all.

The product is also identified by the type assigned by the distributor, according to the following cross-reference:

	Main	Alternative
Model Number	Erone 024A	
Types	S2TR2641E2	RCS-433LS2
	S2TR2641E4	RCS-433LS4
	S2TW2641E2	RCS-433LT2
	S2TW2641E4	RCS-433LT4

NOTE2 : In this case the GRANTEE CODE communicated by FCC is **PWJ**, so the FCC ID is composed by the string **PWJ** and by the Model number **024A**.

NOTE3 : The types identified by the letters S2TW have a univocal serial number that appears also on the label
