

TX DS433 Types : SETDS39433E2 – E4

The identification of this transmitter is carried out with a label on the back of the transmitter itself and a label on the white packaging.

On both the labels it is reported also the identification of the USA customer.

For space reason, just on the product label, it is inserted only the main sentence of the FCC : "This device complies with FCC Rules Part.15".

In the packaging label, the Sentence is reported completely.
