

Winmate Communication Inc.

Attestation

We, Winmate Inc., attest that this device under FCC ID: PX9M133WK002 complies with device protocol requirements and operational restrictions: for Low-power client device.

1. The device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
2. The devices shall not be used for control of or communications with unmanned aircraft systems.
3. The devices shall not be used on oil platforms.
4. The devices shall not be used on aircraft.
5. The devices shall not be used on automobiles.
6. The devices shall not be used on trains.
7. The devices shall not be used on maritime vessels.
8. Statement that the device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
9. The devices may transmit brief messages to an access point after detecting a signal confirming that the access point is operating on a particular frequency in order to join the access point's network.
