Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for
FCC ID: PX9WCN6856, Original grant date: April 20, 2026

The major change filed under this application is :

1. The subject approved module is integrated in a new host (product: Rugged Tablet PC Model: M700DQ9).
2. Evaluations have been conducted to ensure compliance with EMC and RF exposure requirements.
3. The hardware design of this transmitter that may affect compliance, remains unchanged in this permissive change application.
4. The RF parameters of this transmitter that may affect compliance, remains unchanged in this permissive change application.
5. The security mechanism according to section II of KDB 594280 D02 is remained unchanged as it reported to the FCC at the initial certification.
6. WLAN transmitter only supports with passive scanning in UNII-2A & UNII-2C bands without radar detection, hence radar detection is exempted from evaluation in this permissive change.
7. Add a new antenna of the same type; after comparing its gain value with the originally certified one, confirm that it is lower, yet still higher than the antenna gain used in the CBP test.

Sincerely,

A handwritten signature in blue ink that reads 'Lindon'.
