- (3) Volume +
- (4) Bluetooth® Indicator
- (5) Aux In
- (6) DC In
- (7) Charging Indicator
- (8) Connection Indicator
- (9) Handle

The Satellite Speaker

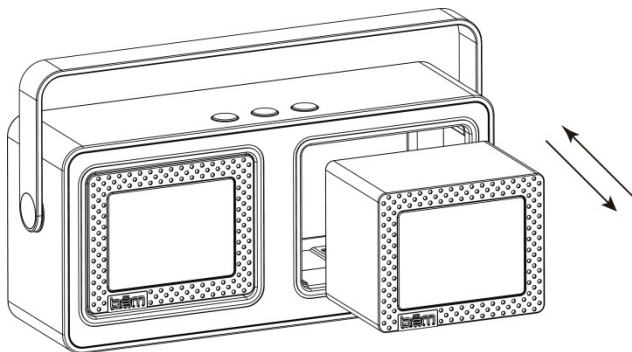

Getting Started

We know you are excited to experience your new Speaker Duo. These two easy steps will get you up and running quickly.

Step 1: Charge It

Connect your Speaker Duo matrix case to an outlet using the included power adapter. It will start charging the matrix case. Slide the satellite speakers into the case for charging. The red backlight will slowly flash during charging and goes out when it has reached a complete charge (Approx. 3.5 hours).

Step 2: Connect it

There are two options for connecting to your Speaker Duo - wirelessly by Bluetooth® or wired using the included aux cable.

● Connect Wirelessly

Turn on the power of the matrix case followed by powering on each of the 2 satellite speakers. Once the base is powered on the Bluetooth® indicator will light and a tone confirming that the unit is currently in pairing mode will sound.

Go to the Bluetooth® settings on your mobile phone, tablet or computer to find the device named "Speaker Duo". A tone will sound to confirm the device has paired successfully. Next time the Speaker Duo and connected device will pair automatically. After completing this step you are ready to start playing audio from your connected device.

Hold the Play/Pause button for 5 seconds will disconnect the connected device and enter pairing mode for pairing a new device.

● Direct Connection

The Speaker Duo can also be connected to any device that has a headphone jack or line out using the included aux cable.

Please note the play/pause button only operates when connected via Bluetooth®.

Operation Details

Power on / Power off

Matrix Case: Press the power button to turn on the Matrix Case of Speaker Duo. The Bluetooth® indicator will light up to signify the unit is on and ready to be paired. Press the power button again to turn off the base and the Bluetooth indicator light will go out.

Satellite Speakers: Press the power button to turn the speaker on. The Indicator on the speaker will light up to signify the unit is on. Press the power button again to turn off the speaker and the Indicator will also go out.

Please note, always make sure to first turn on the base unit before turning on the speakers

Play modes

Bluetooth mode: play an audio signal from the connected Bluetooth® device.

AUX mode: play an audio signal from the connected "wired" device.

Please note, if an Aux cable is connected to the speaker it will not play music from Bluetooth® connected devices.

Select the L/R Channel

Use the L/R switch at the back of the Satellite Speaker to select the sound channel.

Switch to L to play left channel and R for right channel.

Audio Use

Follow the above connection steps to pair a Bluetooth® device with the Speaker Duo. At this point you can send any kind of audio signal to your speaker (music, video, gaming, etc.). Just use your device as normal and the audio will play through your Speaker Duo.

Controls

Press the Power/Pair button to play or pause the music when using a music player through your Bluetooth® connected device.

Pressing the + and - buttons will increase or decrease the volume on the Speaker Duo. Please note that this will not affect the volume levels on the connected device.

Connection

Laptop / notebook / PC

As the Bluetooth® versions for these types of devices varies greatly, the connection methods will differ as well. If you can not connect with the Speaker Duo using the previous method instructed you may need to install a new version of the Bluetooth® driver.

Please reference the instructions of device for details.

Speaker Placement

The Satellite matrix case has battery built-in, with the metal handle, it can be taken easily on the go.

The 2 individual speakers can be removed from the matrix case to be set anywhere you like. Approximate range is 50ft away from the case (open area). The Speaker Duo uses 5.8GHz signal so you're free to put the speakers where you like!

Charging

Connect your matrix case to an outlet using the included power adapter. Place the speakers into the charging area of the case. The red backlight will slowly flash during charging and goes out when it has reached a complete charge (Approx. 3.5 hours).

Note: if the unit has not been used in the past 7 days please charge for 10 minutes before using the Speaker Duo.

Troubleshooting

Issue: Pairing is unsuccessful after multiple attempts

Solution:

- Check if the Bluetooth® indicator light is on. If the indicator light is off, please press the power button to turn the unit on. If the Bluetooth® indicator light still doesn't come on after pressing the power button, please charge the unit.
- Check for other Bluetooth® devices around the surroundings that may interfere with searching and turn devices off.

- Power off and then power on the unit to restart the Bluetooth® function of the unit or your Bluetooth device
- Unplug any cables plugged into the AUX IN, restart all devices and then attempt pairing again.

Issue: Interference or static during playback

Solution:

- Avoid using the device between concrete or other building structures that may interfere with the signal.
- Please check if the battery level of the unit and the Bluetooth® device and charge if necessary.

Maintenance

Please follow the instructions below for cleaning your Speaker Duo

- Power off the unit and unplug the power adapter from wall outlet
- Use a soft, dry, lint-free cloth and wipe gently
- Do not use alcohol, benzene, thinners or other chemical detergents as these can cause the casing to be
- warped or discolored
