Subject: KWGR614NA (PY306300055)

Steve,
Please review proposed statement for FCC statements for user manual.

Regarding channel selection.

KWGR614NA product has capabilities to operate ONLY in channels 1-11 bands. "Select Region" option allows you to choose only "North America" region, there are no other option under select region.

Best Regards,

Mark Gandler

TCB Review Comments for (A06-0925a- PY306300055- Netgear 11g router)

-EMC-

Question #1: Manual is missing following regulatory statements:

- 47 CFR 15.19 no interference & no protection warning
- 47 CFR 15.21 -- information re modifying product
- 47 CFR 2.1091 -- Mobile RF exposure user information

Question #2: Page 21, 22, 27, 50 & 51 Manual show region selection and it is not clear that if this feature is available on US model. Please clarify.

Wireless Network

Name (SSID):	NETGEAR
Region:	-- Select Region -- ▼
Channel:	6 ▼

- **Region.** This field identifies the region where the KWGR614 can be used. It may not be legal to operate the wireless features of the wireless router in a region other than one of those identified in this field.

Note: The region selection feature may not be available in all countries.

Best regards,
