

# Modular Approval Request Letter

Bureau Veritas Consumer Products Services (H.K.) Ltd., Taoyuan Branch

April 27, 2026

Dear Application Examiner,

Netgear Incorporated, Inc., LGA Module, FCC ID: PY326100659 would like to have your authorization as a limited modular approval for the specific Dell's host as below description:

The requirements of § 15.212 Modular transmitters have been shown in the following statements.

| Item | Modular requirement                                                                                                                                                                                                                                   | Y/N | Comments                                                                                                                                                                             |
|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | The radio elements of the modular transmitter must have their own shielding                                                                                                                                                                           | Y   | This modular has its own RF shielding. The radio portion of this module has been shielded, please see exhibition External Photo.                                                     |
| 2    | The modular transmitter must have buffered modulation/data inputs.                                                                                                                                                                                    | Y   | The module's transmitter chip utilizes buffered data inputs; it is integrated in chip <b>SDX75</b> .                                                                                 |
| 3    | The modular transmitter must have its own power supply regulation.                                                                                                                                                                                    | Y   | The module contains its own power supply regulator chip. The part number of this regulator is <b>SDX75</b> .                                                                         |
| 4    | The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c).                                                                                                                      | Y   | The EUT meets the FCC antenna requirements. The spurious emission, unique antenna connector and photo of antennas are shown in the test report.                                      |
| 5    | Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing.                                               | Y   | The EUT was tested in a stand-alone configuration via a USB extender. Please see section Photographs of Test Configuration in the test report, the EUT was plugged in this extender. |
| 6    | The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.                                                                                       | Y   | The module label is permanently affixed to the EUT. And also in the exhibition Users Manual, there are instructions give to the OEM on how to label the end product.                 |
| 7    | The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. | Y   | The EUT is compliant with all applicable FCC rules. Detail instructions for maintaining compliance are given in the Users Manual.                                                    |
| 8    | Address compliance with the Commission's RF exposure limits in Sections 1.1310 and 2.1093.                                                                                                                                                            | Y   | The EUT is compliant with all applicable RF exposure requirements. RF Exposure is addressed in the RF exposure exhibition.                                                           |

Please contact me if you have any further questions. Thanks for your attention.

Best Regards,

A handwritten signature in black ink, appearing to read "Emerald", with a stylized flourish at the end.
