RE: Netgear Incorporated

FCC ID: PY3ME103

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please correct the RF exposure exhibit regarding users manual separation distances to 20 cm to be consistent with the rest of the application.
- 2) Page 38 of 49 of the users manual states to use shielded cables. Were shielded cables used for the Ethernet? If not, it is best to remove the reference to shielded cables since it is not necessary.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
