ATCB Comments
08232004.pdf

Dear Bill

The comment mentions that the product can be operated the illegal channels in the North American. We will confirm the answer is No. The end user can not change the country code in the software.

Best Regards
Wendy Liao

Dear Bill

We have been provided the test results for spurious emissions with both transmitters operating simultaneously. The RF exposure also has been revised and uploaded to website. Would you please check and send the grant today? Thanks for your assistance!

Best Regards
Wendy Liao

主旨

Wendy,

My apologies for the delay - it is not my style. I had a very painful and bad ear infection that kept me away from my duties for a couple days.

Attached please find my review of the Netgear dual band project. There are two important but inter-related issues that must be resolved

- 1.) How does simultaneous transmission affect RF Exposure
- 2.) How does simultaneous transmission affect Tx Spurious Emissions

The other points are very minor. If you have questions please do not hesitate to call me on my cellphone in Taipei (see below).

Bill

Dear Bill,

Please take care of the apply for FCC ID.: PY3WGU624.

We do not receive any comments now yet.

If no any comments, would you please send the grant today? Thanks for your assistance!

Best Regards

Wendy Liao
