To turn on your device

- ! It is recommended to charge the battery for at least 30 minutes before you turn on your device for the first time. It is important to use the USB Type-C™ cable provided when charging your device, as other types of USB cables can damage your device.

- 1 Press and hold down the power key  until the device vibrates.
- 2 Wait a moment for the device to start.

To activate the screen

- Briefly press the power key .

Screen protection

- ! Before using your device, remove the protection film by pulling up on the protruding tab.

Screen covers and protectors may help you protect your device against damage. We recommend you use only those screen covers intended for your Xperia™ device. The use of third party screen protection accessories may prevent your device from working correctly by covering sensors, lenses, speakers, or microphones and can invalidate the warranty.
