Manufacturer's Declaration of IMEI Security

Applicant

SonyEricsson Mobile Communications AB
Torshamnsgatan 27
SE-164 94 Kista
SWEDEN

Product details

SonyEricsson type 713 05 01-yy, all software and hardware versions.

Declaration

We declare that the steps listed in paragraphs 1 to 3 below to protect the security of the IMEI has been taken.

1. Programming security
Encryption techniques has been adopted to prevent unauthorised reprogramming of the IMEI. The IMEI numbers are stored in non-consecutive memory addresses.
2. Mechanical security
The apparatus has been constructed such that unauthorised persons cannot economically replace the component in which the IMEI is stored.
3. Availability of software
Knowledge of the software and data locations are restricted to the manufacturer's personnel on a need-to-know basis
