RF PAD Circuit description

The circuit: PS2 RF HOST

It is receiver of RF PAD, U1(X9 IC) is connect with RF module, U2(X9 IC) is connect with console.

The 16M crystal drivers the U2 IC, the 14.7456 crystal drivers the U1 IC, Shell of all crystal must be connect with GND.

The circuit: PS2 RF PAD

It is RF PAD, IC3(asrf1 IC) is RF PAD key input controller, U1(GRG00 IC) is connect with RF module.

The 14.7456 crystal drivers the U1 IC, Shell of all crystal must be connect with GND.

The module of the RF pad and receiver is connect with GND.
