RF WIRELESS GAME PAD

Product Features

1. The contoller ,with battery inside, can be continually employed for above 6Hrs with vibration function and for at least 60 Hrs without vibration respectively
2. Two sets of signal control electric machinery ,and equipped with vibration Selection switch.
3. Controlled at the Same time by eight Signal channels which don't interfere with each other(American Standard);controlled at the same time by four channels of signal which don't interfere each other(European Standard).
4. Four types of special functions: TURBO,SLOW,MAPPING and PROGRAM.
5. Support Digital Mode and Analog Mode.
6. With Mode Led and Signal lights
7. Able to be operated in the distance of 8M,the most up to 20M and with 360 degress free turning.
8. Automatically clear PROGRAM function after being turned off.
9. Sweatproof Hand Grips facilitates long operation.
10. The transmission output of the product is 50mw.

"Modifications not authorized by the manufacturer may void users authority to operate this device"

NOTE:

This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, these is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
