

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the back of a black plastic EUT housing with its battery cover removed. The internal battery compartment is visible, containing a white battery with a label that includes 'CE' and 'WALTEK' markings. The housing is placed on a blue textured surface next to a black L-shaped ruler with white markings in centimeters and millimeters.
EUT Housing and Board View 2	 A photograph showing the back of the same black plastic EUT housing with the battery cover removed. The internal battery compartment is visible, showing a different battery with a label that includes 'CE' and 'WALTEK' markings. The housing is placed on a blue textured surface next to a black L-shaped ruler with white markings in centimeters and millimeters.

EUT Housing and Board View 3	 This photograph shows the internal components of the EUT housing from a top-down perspective. The black plastic housing is open, revealing a red printed circuit board (PCB) populated with various electronic components, including a large white battery, a SIM card slot, and several integrated circuits. A yellow flexible display cable is visible, connecting the board to the display area. A black ruler with white markings is placed horizontally below the housing for scale, showing measurements in millimeters and centimeters.
EUT Housing and Board View 4	 This photograph shows the internal components of the EUT housing from a bottom-up perspective. The black plastic housing is open, revealing the underside of the red PCB. The white battery is visible, along with various surface-mount components and the yellow flexible display cable. A black ruler with white markings is placed horizontally below the housing for scale, showing measurements in millimeters and centimeters.
