

Request for Modular Approval FCC ID: Q78-MG2636

Item	Requirements	EUT
1	The maximum antenna gain to allow compliance with RF exposure requirements is listed on the Grant of Certification for the module.	There is no antenna in this modular, it provides a antenna connector.
2	The licensed module must have a FCC ID label on the module itself. That FCC ID label must be visible through a window on the final device or it must be visible when an access panel, door or cover is easily removed. If not, a second label must be placed on the outside of the final device that contains the following text: Contains "FCC ID: Q78-MG2636"	Please refer to the FCC ID label format. Labeling instruction has been provided in the OEM installation instruction.
3	The Grant should include the following words in the device description or grant notes: "modular transmitter" or "transmitter module".	Modular approval is requested for this application.
4	The module must comply with RF exposure requirements. See FCC Rules. Spread Spectrum transmitters must comply with RF exposure limits in 15.247.	Provide MPE Calculation report. And It is RF exposure safe.
