

FCC SDR Class III Permissive Change Declaration

Date: Nov 4, 2015

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Attn: OET Dept.

Product/ Model Number: APEX0102

Regarding the requirements for class III permissive changes identified in the SDR application guide (KDB 442812 D01 SDR Apps Guide v01), the following information must be provided when performing a Class III permissive change.

1) Identify all versions of software that are approved in the original grant, and all other granted Class III permissive changes including the requested Class III change.

AOS 6.4.4.0 version operate after original FCC Grant has been issued. Please refer to SDR Security Document for new AOS version after this Class III Permissive Change is approved.

2) Confirm that there is no change to the Software, Distribution and Security Documentation. If it does then a Class III resubmission of SDS security documentation is also required. (Note: Any changes to the Software, Distribution and Security Documentation requires a PBA to be filed.)

We declare there have been no changes to the SDR security documentation. The safeguards in place in the original grant are still in place.

Sincerely,

(Signature)
