We, Hewlett Packard Enterprise Company, attest that this device under FCC ID: Q9DASIN0308 complies with device protocol requirements and operational restrictions: for indoor client 6XD.

Indoor Client (6XD):

1. Device Protocol Attestation Statement:

- a. This device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
- b. This device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief communications before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP, it will not continually repeat the request.
- c. Statement that transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.

2. Statement acknowledging device restrictions:

- d. This device is prohibited for control of or communication with unmanned aircraft systems, including drones.
