

May 24, 2016

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills RoadColumbia, MD 21046

FCC ID: Q9DMST200DFS
Model: MST2HP and MST2HAC
Original Grant Date: 07/25/12014

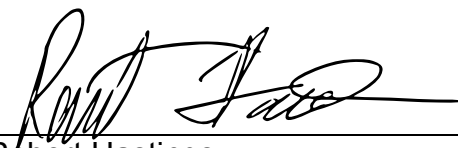

Attention: OET Dept.

Regarding Class II Permissive Change Application to show conformity to the New
FCC Regulations

- Disable operation in the U-NII-2A (5250 – 5350MHz) and U-NII-2C (5470 – 5725MHz) Bands
- Approve U-NII 3 Band under the latest 15.407 rules

There are no hardware changes implemented. The host software version covered in the original grant was ArubaOS 4.7.0.0 all subsequent software versions will be covered by this grant. Details on how ArubaOS implement and control security in order to prevent specifying/changing radio parameters that would violate FCC Grant are described in submitted Security Description for UNII Application document.

Sincerely,

Name:  Robert Hastings

Company: Aruba Networks

Title: Regulatory Compliance Manager

Date: May 24, 2016
