Setting a Slide Show

1 Press the REPEAT button to switch to change modes.

OFF : Deactivates the slide show.

3-SEC : Displays the image files within the current folder once only.

REP 3-SEC : Displays the image files within the current folder repeatedly.

SLIDESHOW 1 (O-A : D : Time) : Plays one file while starting a slide show at the set time interval.

SLIDESHOW 2 (O-A : D : Time) : Plays all MP3 files repeatedly and starts a slide show at the set time interval.

SLIDESHOW 3 (O-A : OFF) : Changes the MP3 music file or JPEG image file according to the user's key stroke.

OFF_FM : In FM radio mode, changes the image by the user's key stroke.

ON_FM : In FM radio mode, changes the image at the set time interval.

- Even during the slide show, you can use REPEAT button to change the mode.

2 Move the JOG key up or down to select a slide show delay time.

- You can set it up to 30 seconds.

- The default is 3 seconds.

Note: Files on the built-in memory and those on the external one cannot be displayed at the same time.

The slide show feature does not support more than 300 kb for MP3, 1024x768 for JPEG and 1MB for both.

LOGO Skin

You can apply a JPEG file you want as the main logo skin.

When a JPEG file is listed on the screen or is open, press and hold REC for more than 2 seconds to apply the picture file as a logo skin.

Note: Only files smaller than 128Kb and with a resolution of 640x480, 720x480, 640x576 and 720x576 can be applied as a skin.

Use RESET from the SETUP menu when you want to delete the skin.

Deleting a File

1 When deleting a file from the list of files, select the file you want to delete by using the JOG key and hold the key for at least two seconds. (When selecting all the files in the folder, press and hold the REPEAT button for two seconds or longer.)

2 When the STOP button is pressed, the selected files will be deleted.

3 Deletion of the selected files can be cancelled in the same way as the selection of files.

Listening to the Music

MP3 LIST

ENG

- When you want to add a file to the PROGRAM list, select a file and press and hold down the JOG key to change the icon image before adding it to the list.
- When you want to remove a file from the PROGRAM list, select the file and press and hold down the JOG key to change the icon image before removing it from the list.
- Each time you press and hold down the REPEAT button, the PROGRAM list add/delete will be activated.
- When exiting from REPEAT mode, your settings for the program list will be lost.
- In PROGRAM playback mode, you cannot delete a file from the list.

SLIDESHOW 1 (O-A : D : Time): Plays one MP3 file and starts a slide show at the set time interval.

SLIDESHOW 2 (O-A : D : Time): Plays the entire MP3 files repeatedly and starts a slide show at the set time interval.

SLIDESHOW 3 (O-A : OFF): Changes the MP3 music file or JPEG image file according to the user's key stroke.

- During a slide show, move the JOG key to the left or right to select the previous or next MP3 file.
- Even during the slide show, you can use the REPEAT button to change the mode.

Note: Files on the built-in memory and those on the external one cannot be displayed at the same time.

The slide show feature does not support more than 300 kb for MP3, 1024x768 for JPEG and 1MB for both.

Search

- ❶ Hold the JOG key to the left or right to move the playback position of the current file forwards or backwards.
- ❷ A search can be executed at a maximum speed of 16 $\times$. The sound is muted during a search.
- ❸ If you press the JOG key during a search, the file is played.

Repeat Section

- ① Repeats a section selected from the currently playing file.
- ② Press the MENU button to select the start (point A).
- ③ Press the MENU button again to select the end (point B).
Section A-B will be played repeatedly.
- ④ If you press the MENU button during the repeat section, the repeat section is canceled.

Lyric Display

- ① When you play a music file containing lyrics, the player automatically displays the lyrics. The ID3Tag of the music file you wish to play should be formatted with Lyrics3 Tag Ver1.0 or Ver2.0 before the player can display lyrics.
- ② Lyrics containing time information are displayed at the top corner at the time they are originally set.
- ③ Lyrics without time information are displayed in the file list window, which can be turned on/off by pressing and holding down the JOG key.
ON: Automatically displays lyrics, if any exist.
OFF: Does not display lyrics even if any exist.
- ④ You can move the display position of the lyrics (with no time info.) up or down using the JOG key.

Note: When you see a lyric window with no lyrics displayed, this may be caused due to incorrect ID3Tag information. Check the ID3Tag information of the file for any errors. If there are any, correct them and try again.

Deleting a File

- ① When deleting a file from the list of files, select the file you want to delete by using the JOG key and hold the key for at least two seconds. (When selecting all the files in the folder, press and hold the REPEAT button for two seconds or longer.)
- ② When the STOP button is pressed, the selected files will be deleted.
- ③ Deletion of the selected files can be cancelled in the same way as the selection of files.

Viewing Text Files

TEXT VIEWER
