Compliance

Product compliance markings and information can be accessed upon removal of the silicone cover at the tip of the pen. Re-attach silicone cover before normal use.

United States of America

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Do not make any changes or modifications to the equipment.

Canada

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Europe

We Promethean Limited, declare under our Sole responsibility that the AP-ActivePen-2 conforms to the requirements of European Union Directives 2014/53/EU Radio Equipment Directive (RED), 2014/30/EU Electromagnetic Compatibility Directive, 2014/35/EU Low Voltage Directive and 2011/65/EU Restriction of Hazardous Substances in Electrical and Electronic Equipment. Full Declaration of Conformity can be found by searching for the model number at support.prometheanworld.com.

WARNING

AP-ActivPen-2 is a Class B Product. In a domestic environment, it may cause radio interference in which case the user may be required to take adequate measures

United Kingdom

We, Promethean Limited declare under our sole responsibility that the AP-ActivPen-2 conforms to the essential UKCA requirements 2016 No:1091 Electromagnetic Compatibility regulations 2016, 2016 No:1101 Electrical Equipment Safety Regulation 2016, 2017 No:1206 The Radio Equipment Regulation 2017, and UK SI 2016 No:1091, RoHS Restriction of the use of certain Hazardous Substances in Electrical and Electronic Regulations 2012 – UK SI 2012 No:3032.

WARNING

AP-ActivPen-2 is a Class B Product. In a domestic environment, it may cause radio interference in which case the user may be required to take adequate measures.

Waste Electrical and Electronic Equipment (WEEE)

United States of America

Pen: FCC ID: QAM025

Dock: FCC ID: QAM027

Model No: AP-ActivPen-2

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy. If not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an output on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio technician for help.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference; and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment (Pen and Dock) complies with FCC radiation exposure limits set forth for an uncontrolled environment. The Dock should be installed and operated with minimum distance 20cm between the radiator and your body.

Canada

Pen: IC: 5459A-025 HVIN: 5459A-025

Dock: IC: 5459A-027 HVIN: 5459A-027

Model No: AP-ActivPen-2

Canada-IndustryCanada(IC)

This device complies with Innovation, Science, and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Modèle no: AP-ActivPen-2

Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device (Pen and Dock) is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance.
The minimum distance from body to use the Dock is 20cm.

L'appareil (stylo et station d'accueil) est conforme aux directives d'exposition aux RF. Les utilisateurs peuvent obtenir des informations canadiennes sur l'exposition aux RF et la conformité.
La distance minimale du corps pour utiliser la station d'accueil est de 20 cm.
