

Product Marketing name: OPS-A2

Date:04/04/2025

Model(s): OPS-A2-8R64S, OPS-A2-16R64S

IC: 32844-MS358

FCC ID: QAM028

Model difference

OPS-A2-8R64S, OPS-A2-16R64S

have the same technical construction including circuit diagram, PCB Layout, components and component layout, all electrical construction and mechanical. The difference lies only the DDR size (Memory size).

For details, please refer to external photo and internal photo

However, the difference do not affect the radio/wireless function.

1. Describe the non-RF boards, and circuitry differences. **No differences.**
2. Describe the RF boards and circuitry differences.
No differences.
3. Describe the exterior casing and color differences.
N/A
4. If no differences, provide the reason(s) for obtaining multiple PMN(s)/HVIN(s)/FVIN(s). **N/A**
5. If family contains multiple versions for marketing purposes, detail the marketing detail differences such as names of distribution chains, packaging information, labeling information, etc. **Difference HVIN will show on the label.**
6. If submitting multiple versions for future intro on market, provide future market launch plans and why not postponing certification of product versions not ready for market.
Not Applicable.
7. If chosen PMN or HVIN are already on the market in other countries but the devices are not identical to what is provided in the Canadian application, provide justification.
Not Applicable.
8. Provide internal & external photos for each product version.
please refer to Internal photos for each product version.
9. Provide manual and product labels for each product version.
please refer to product labels for each product version.

Yours sincerely,
