RE: Modular Transmitter Application

Company name: SMART Technologies Inc.
FCC ID: QCI-SKIWB8D8U5

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter Approval Request for:

FCC KDB 996369 D01 'Module Certification Guide v02; and
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02', FCC ID: QCI-SKIWB8D8U5 has been examined against the following requirements:

Requirement per 15.212 and KDB 996369 D01	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Yes, There is a welded shielding case on the module
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	Yes, module have buffered modulation/data inputs
The module must contain power supply regulation on the module.	Yes, The input voltage is DC 5V
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	Yes, WiFi and Bluetooth is the Coaxial antenna
The module must demonstrate compliance in a stand-alone configuration.	Yes, The module can work independently under DC power supply
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	Yes, the label has an FCC ID and is permanently attached to the module
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Yes, To pass all tests of Part 15C and Part 15E
The module must comply with RF exposure requirements	Yes, refer to JCF250106074-005 FCC MPE

Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	P2
2.3	Summarize the specific operational use conditions	P1
2.4	Single module procedures	P2
2.5	Trace antenna designs	P2
2.6	RF exposure considerations	P2
2.7	Antennas	P2
2.8	Label and compliance information	P3
2.9	Information on test modes and additional testing requirements	P3
2.10	Additional testing, Part 15 Subpart B disclaimer	P3

Sincerely,

Sean MacKellar
