

This equipment, like other electronic equipment, generates and uses radio frequency energy. If not installed and used according to the instructions in this manual, this equipment may cause interference with your radio and television reception.

If you think this equipment is causing interference with your radio or television reception, try turning the equipment off and on. If the interference problems stop when the equipment is switched off, then the equipment is probably causing the interference. You may be able to correct the problem by doing one or more of the following:

- Adjust the position of the radio or TV antenna
- Move away the device from the radio or TV

| Category            | Item                      | Specifications                                          |
|---------------------|---------------------------|---------------------------------------------------------|
| Audio               | Frequency/Range           | 20Hz~20KHz                                              |
|                     | Headphone output          | 13mW(L) +13mW(R) at 16 $\Omega$ Max. Volume             |
|                     | S/N ratio                 | 90dB(L), 90dB(R)(When a MP3)                            |
|                     | Frequency Characteristics | $\pm$ 2dB                                               |
| Audio<br>(FM TUNER) | No of Channels            | STEREO(L+R)                                             |
|                     | FM Frequency range        | 87.5MHz~108MHz                                          |
|                     | Headphone Output          | 13mW(L) +13mW(R) at 16 $\Omega$ Max. Volume             |
|                     | S/N ratio                 | 50dB                                                    |
|                     | Antenna                   | Headphone/Earphone-Cord Antenna                         |
| File Support        | File TYPE                 | MPEG 1/2/2.5 Layer 3, WMA , ASF , WAV (44.1KHz / 16Bit) |
|                     | Bit Rate                  | 32Kbps ~ 320 Kbps                                       |
|                     | Tag                       | ID3 V1 , ID3 V2 2.0, ID3 V2 3.0                         |
