RE: FCC Class II Permissive change for FCC ID: QDS-BRCM1087
(Original Grant date: July 14, 2015)
Applicant: Broadcom Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: QDS-BRCM1087. There are no hardware or electrical modifications to the applicable modular transmitter.

Radiated emission test was not performed as the host antenna is same type with lower gain from original filling and original EMC test was tested in a stand-alone configuration which should be considered as the worst case and valid for this filling.
