

Justification Letter

Date (21/05/2014)

Federal Communications Commission
7435 Oakland Mills Road
Columbia MD 21046

Dear Sir or Madam,

We,

Huawei Technologies Co., Ltd.
Bantian, Longgang District, Shenzhen, 518129, China

hereby to do the Justification on original FCC application: LTE only Module, ME206v-561, FCC ID: QISME206V-561 as following:

ME936 FCC ID:QISME936 is a LTE Module, ME936 is an LTE Module. ME936 can support the wireless communication of LTE(Band II/IV/V/VII/XIII/XVII),3G (UMTS850/1900MHz), 2G (GPRS/EDGE850/1900 MHz), and GPS.

And the new ME206v-561 FCC ID:QISME206V-561 will stay hardware the same and that there are differences in band. ME206v-561 can support the wireless communication of LTE(Band II/IV/V/XIII/XVII), and GPS. There are no hardware changes in the new variant and that the omitted frequency bands will be switched off by software which is not accessible by the end user.

So the RF report: SYBH(Z-RF)012112013-2001 is available for QISME206V-561
EMC report: SYBH(Z-EMC)048112013-2 is available for QISME206V-561
MPE report: SYBH(Z-SAR)014112013-2 is available for QISME206V-561

So in new FCC application for ME206v-561 (FCC ID: QISME206V-561),

Sincerely,

For and Behalf of:
Huawei Technologies Co., Ltd.

Zhangxinghai
EMC Laboratory Manager
