| Photo 8: Towards Phantom (10mm)                                                                                                                                                                                                                                                                               | Photo 9: Towards Ground (10mm)                                                                                                                                                                                                                    |
| A close-up photograph of a black, multi-layered mechanical fixture. The fixture has a central horizontal bar with a series of small, evenly spaced holes. Above this bar, there are several horizontal plates and a red component on the left. A label with 'S/N: 1597' is visible in the upper right corner. | A close-up photograph of the same black mechanical fixture as in Photo 8, viewed from a slightly different angle. The central bar with holes is prominent. A label with 'PIN: QD 000 P40 C' and 'S/N: 1597' is visible in the upper right corner. |
| Photo 10: Left edge (10mm)                                                                                                                                                                                                                                                                                    | Photo 11: Right edge (10mm)                                                                                                                                                                                                                       |
| A photograph showing the left side of a black smartphone held vertically in a white foam block. The phone's screen is visible, and the black mechanical fixture is positioned in front of it.                                                                                                                 | A photograph showing the right side of the same black smartphone held vertically in a white foam block. The phone's screen is visible, and the black mechanical fixture is positioned in front of it.                                             |
| Photo 12: Top edge (10mm)                                                                                                                                                                                                                                                                                     | Photo 13: Bottom edge (10mm)                                                                                                                                                                                                                      |
| A photograph showing the top edge of the black smartphone held vertically in a white foam block. The phone's screen is visible, and the black mechanical fixture is positioned in front of it.                                                                                                                | A photograph showing the bottom edge of the black smartphone held vertically in a white foam block. The phone's screen is visible, and the black mechanical fixture is positioned in front of it.                                                 |
| Photo 14: Towards Phantom (15mm)                                                                                                                                                                                                                                                                              | Photo 15: Towards Ground (15mm)                                                                                                                                                                                                                   |
| A photograph of the black smartphone held vertically in a white foam block, viewed from a distance of 15mm towards the Phantom. The phone's screen is visible, and the black mechanical fixture is positioned in front of it.                                                                                 | A photograph of the black smartphone held vertically in a white foam block, viewed from a distance of 15mm towards the Ground. The phone's screen is visible, and the black mechanical fixture is positioned in front of it.                      |
