

USER MANUAL

Safety Instructions

WARNING

Do not ingest the battery, Chemical burn hazard

(The remote control supplied with) This product contains a coin/button cell battery. If the coin / button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.

Keep new and used batteries away from children.

If the battery compartment does not close securely, stop using the product and keep it away from children.

If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provide for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer.
- 12) Use only with the cat, stand tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13) Unplug this apparatus during lightning' storms or when unused for long periods of time.
- 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15) An appliance inlet coupler is used as the disconnect device, the disconnect device shall remain readily operable.

FCC Warnings

This device complies with Part 15 of the FCC rules. Operation is subject to the following conditions:

(1) This device may not cause harmful interference; and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

IC WARNING

This device complies with Industry Canada's license-exempt RSS. Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et exploité avec une distance minimale de 20cm entre le radiateur et votre corps.

Front & Rear Panels

FRONT PANEL

- 1 1" Silk Dome Tweeter
- 2 4" Kevlar® Mid/Woofer Driver
- 3 LED
 - White - Power on / Playback Mode
 - Yellow - Standby (solid)
 - Mute (flashing)
 - Blue -  Discover Mode (flashing)
 -  Paired (solid)
- 4 Volume / Input Select / Standby / Wake-up

REAR PANEL

- 5 RCA L/R Input
- 6 Subwoofer Output
- 7 Right Channel Output Terminals (+ and -) for Passive Speaker Connection
- 8 ON / OFF Switch
- 9 AC Input Connection (100 V - 240 V)

Volume/Input Select Knob

YU's volume knob functions as an input select knob as well.

Push the knob to select an input source - it cycles through the following inputs depending on what input source was last used.

RCA → BLUETOOTH

Push and hold the knob to enter standby or wake up from standby

Bluetooth® Pairing

YU features **Bluetooth** 4.0 with Qualcomm® aptX™ technology and can be paired with many devices for wireless audio playback from your phone, MP3 player or tablet. Pairing is easy.

1. Press the **Bluetooth** button (ⓑ) on YU's remote to select it as the input source. The Bluetooth LED (blue) will flash to indicate that YU is in pairing mode.
2. Enable your **Bluetooth** device to search for a new device to pair with. Select 'YU by Kanto' from the list of Bluetooth devices available for pairing.
3. If pairing is successful, the **Bluetooth** LED (blue) will remain solid. You will not need to pair the same Bluetooth device again - 'YU by Kanto' will remain on your device list until you remove it from the list.
4. If the device does not pair with YU, turn the speaker's ON/OFF Switch to the OFF position, then repeat Steps 1 to 3. Alternatively, you can press the **Bluetooth** reset button (ⓑ) on the remote or turn off **Bluetooth** on your device and turn it back on again.

Bluetooth® Operation

1. We recommend keeping a maximum distance of 10 meters between the speaker and your device. The best signal fidelity is within this range.
2. You can stream audio from your device to the speaker using either the player control buttons of your device or the control buttons of the remote control
3. Take note of the following behavior and functionality during **Bluetooth** operation. When you are successfully connected, the Blue LED will be lit solid, and your device will show as connected to 'YU by Kanto'.
 - The connection between speaker and device remains active even if input source has changed. For instance, you can switch to another input source (e.g. RCA) and return to **Bluetooth** operation without losing signal connection and, therefore, do not need to pair with the device again.
 - When the speaker is put in Standby mode or powered OFF, **Bluetooth** connection with the device is lost. When the speaker returns to Playback mode, the **Bluetooth** connection between the speaker and device is re-established. However, you may notice a choppy playback signal for approximately 30 seconds after reconnection. It will normalize.
 - While the speaker can be paired with more than one device, only one device can play and transmit audio signal at a time.
4. The YU remote control features a **Bluetooth** Reset button to quickly disconnect a paired device and allow a second device to pair with the speaker (button #7 on the Remote Control diagram on page 5).
 - Press **Bluetooth** Reset button to disconnect a paired device.
 - Follow the pairing instructions to pair another device.
 - The same behavior and functionality apply to the second device.
